

## Research Application form

Safe Network is committed to support research in those areas relevant to the work of the Agency. Consideration of any research proposal will take into account its relevance to the work of Safe Network, its client base and the wider Harmful Sexual Abuse (HSB) and social services sector, and its impacts on Safe Network's resources including staff time and incidental costs.

Please complete the following form and attach any relevant supporting documents.

### Research proposal

1. Brief summary outline of research proposal.
2. Research scope including linkage to relevant literature (please attach). The research scope should include details of all researchers involved and if/how the research supports their education, training and professional development.
3. Ethics approval and/or evidence to confirm proposal complies with appropriate medico-legal, professional and ethical standards (please attach).
4. Involvement of any other organisations in the proposed research, including sponsors, funders and other research sites.
5. Proposed research outputs, including details of the outputs to be provided to Safe Network.

## Relevance to Safe Network

Please provide details on the anticipated relevance of your research to:

6. The work of Safe Network, including how it will inform clinical or business practice.

7. The wider Harmful Sexual Behaviour sector i.e. WellStop, STOP.

8. The broader social services sector.

9. Safe Network's client base.

10. Any other relevant agency, stakeholder or party.

## Impacts on Safe Network

Please provide details on the expected impacts of your research on Safe Network.

11. Duration of field work.

12. Any support required by Safe Network clinical or administration staff.

13. Any requirements for workspace or resources.

14. Any direct involvement with Safe Network clients, their support people, networks and/or referrers.

15. Any impacts on the clinical workflow of Safe Network's assessment and/or intervention processes.

16. Any potential financial impacts on Safe Network.

## Any other information

Please provide any other information you would like Safe Network to consider.
